

# Snook Islands Phase II and Bryant Park Wetlands Restoration

## Lake Worth Lagoon

- 20 miles long, stretching from North Palm Beach to Ocean Ridge.
- Largest estuary in Palm Beach County.
- Separated from the ocean by Singer Island and Palm Beach Island.
- Two permanent, man-made inlets.

## Project Location

- Within the City of Lake Worth.
- Snook Islands Phase II project is immediately north of the Lake Worth Bridge.
- Bryant Park Wetlands Restoration project is immediately south of the Lake Worth Bridge.

## Snook Islands Phase II

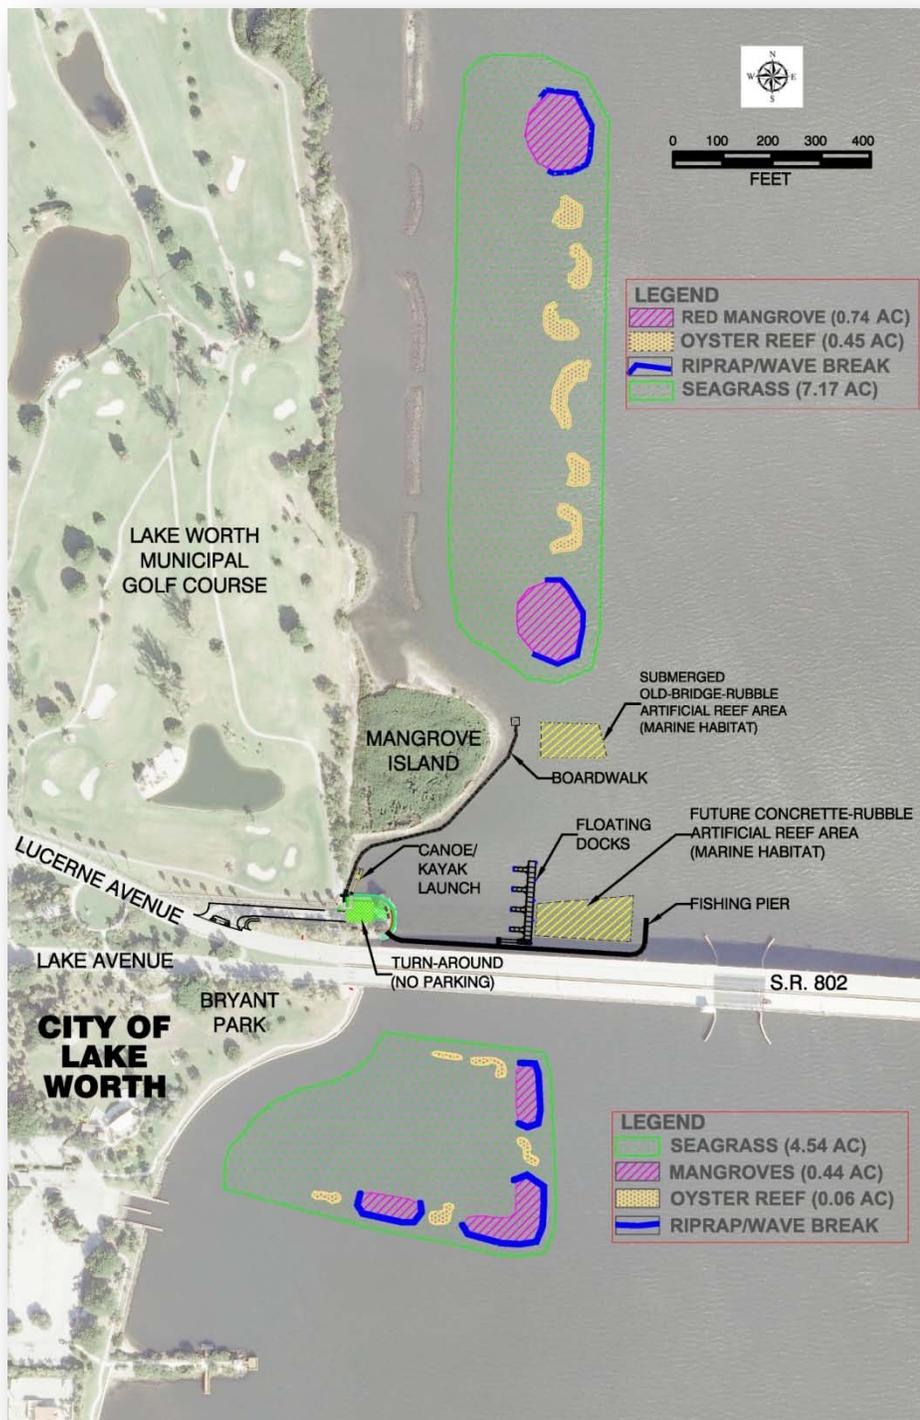

- 0.45 acre oyster reef
- 0.74 acre red mangroves
- 7.17 acres seagrass

## Bryant Park Wetlands Restoration

- 0.06 acre oyster reef
- 0.44 acre red mangroves
- 4.54 acres of seagrass

## Benefits

- More seagrass beds in the Lagoon, providing a food source and nursery habitat for many species.
- Improved habitat for birds using the open areas of shoreline and mudflats.
- Improved habitat for fish.
